2. Plug the charger to a household power socket charging the battery-generally for about 3 hours.

3. After charging, unplug the charger from the power socket before unplugging the 6V battery from the charger.

CONTROLLER PARTS

WARNING:

High speed, race may cause personal injury. Not for children under 8 years.

1. Keep your elbows in and the antenna pointing straight up.

2. Lightly pull the Throttle Trigger and steer the car to the left and right.
5. After becoming used to the controls, try to experience the high performance possible at full throttle and full steering.

changes or modifications not expressly approved by the party responsible for compliance could void user's authority to operate the equipment

<< READ WITH SUPERVISING ADULT >>

- ◆ Read and fully understand the instructions prior to commencing assembly. The supervising adult should also read the instructions if a child is assembling the model.
- ◆ When assembling this kit, tools including knives are used. Extra care should be taken to prevent personal injury.
- ◆ Keep out of reach of small children. Children must not be allowed to suck any part or packaging material in the kit. Sensibly dispose of the left over parts immediately.
- ◆ Care should be taken with the metal parts contained in the kit, as they could have sharp points and/or edges.
- ◆ Properly dispose sprue and packaging material according to your local waste separation rules.
